Step 2: Cut out the sections provided by the template.

Step 3: Trace each piece onto whatever color of felt you want to use.

Step 4: Carefully cut out and assemble the layers.

Step 5: Glue all your pieces together.

Step 6: Put your mask aside. Gather the rest of your materials including a scissors, yarn, hairbrush and hair iron.

Step 7: Bunch the yarn together and tie a knot at the top. Make sure not to tighten it all the way so that you can create a small loop and easily attach to clothing.

Step 8: Pull at each string of yarn to separate the material.

Step 9: Brush out the material.

Step 10: Straighten the material using a hair iron.

Step 11: Take an elastic and make earloops for your mask. Get into costume and howl away!
